

SARAVANAN P

B.Tech Information Technology Student | Aspiring Software Developer

+91 8072117461 | saravanan2007p@gmail.com | Namakkal, Tamil Nadu | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology student (3rd Year, CGPA 7.87) at VSB Engineering College with a solid foundation in programming, data structures, and web technologies. Proficient in C, Python, Java, and HTML/CSS, with hands-on project experience spanning application development, machine learning, and mobile-first design. Recently developed an AI-powered mobile platform for democratizing sports talent assessment using pose estimation. Seeking an internship or entry-level role as a Software Developer, Web Developer, or Junior Programmer to apply technical skills and grow within a collaborative, Agile team.

TECHNICAL SKILLS

- Languages:** C, Python, Java (Core), HTML5 & CSS3
 - Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS / SQL (Basics)
 - Tools & Platforms:** Git & GitHub, VS Code, Postman, Linux / Ubuntu, MS Office & Google Workspace
- Soft Skills:** Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Critical Thinking

EDUCATION

B.Tech - Information Technology (CGPA: 7.87) <i>VSB Engineering College, Tamil Nadu Currently: 3rd Year (Sem 5)</i>	2024 - 2028 (Expected)
Higher Secondary (12th Standard) - 79% <i>Physics, Chemistry & Mathematics Tamil Nadu State Board</i>	Completed 2024
Secondary School (10th Standard) - 78% <i>Tamil Nadu State Board</i>	Completed 2022

PROJECTS

AI-Powered Mobile Platform for Democratizing Sports Talent Assessment	2025 - 26
- Designed a mobile platform concept that uses AI-based pose estimation to deliver objective, low-cost athletic performance assessment, aimed at making talent scouting accessible in underserved regions - Built a functional MVP landing page (HTML5, CSS3, JavaScript) featuring an animated AI visualization, a video-upload demo flow, and a simulated analysis pipeline with scorecard output - Authored a complete academic project report covering problem statement, system architecture, and feasibility, following standard engineering documentation conventions	
Human Resource Management System	2024 - 25
- Designed and developed an application to manage core HR functions including employee records, attendance, and payroll data using structured data handling techniques - Implemented CRUD operations for employee data management, demonstrating practical knowledge of database design and record-keeping workflows	

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern - Thiranex
Gained hands-on exposure to full stack web development practices, tools, and workflows as part of an industry-oriented internship program

CERTIFICATIONS & ONLINE COURSES

- Python Foundation - Infosys Springboard
- Operating Systems - GUVI
- Generative AI - Future Skills Prime
- Internet of Things - Cisco

AREAS OF INTEREST

Software Development • Web Development • Full Stack Development • Object-Oriented Programming • Data Structures & Algorithms • Database Management • REST APIs • Cloud Computing (Awareness) • Machine Learning & AI (Applied Interest)

DECLARATION

I declare that the information provided above is true and correct to the best of my knowledge.
